**DEPARTMENT OF COMPUTER ENGINEERING**

**Philosophy of Programme**

The Computer Engineering Department at the Sandip Institute of Technology and Research Centre affiliated to university of pune offers at engineering programs leading to the degree of Bachelor of Engineering (B.E) and Master of Engineering (M.E.) in Computer Engineering. Department had established in the academic year 2009-10.

The changing development scenario and IT industry expansions are creating increasing growth opportunities for a Computer Engineering professional. Keeping an eye on the prospects, the Department of Computer Engineering is prepared to meet the future challenges. It is playing a leadership role in shaping the education of the 21st Century by providing unique educational and research opportunities in the forefront of Computer Engineering.

The students are trained with the insight to apply conceptual understanding of core domain areas in computing as well as enhanced programming skills disseminating their analytical abilities. Our aim is to provide our students the lifelong learning and leadership skills that will enable them to grow in their professions and advance to the positions of responsibility by effective Industry-Institute Interaction. The department has a rich infrastructure of over 200 branded machines of latest configuration with major essential peripherals and advanced legal software like Oracle 9i, .Net, Microsoft Server, Linux ,C++ etc.

The Department has 10 fully equipped laboratories namely Programming Lab, Computer Design Lab, Computer Graphics Lab, Hardware Lab, Computer Network Lab, Software Lab ,Digital Electronics Lab, Project Lab and PG Lab."

Computer Engineering department believes in consistent student industry interface and thereby consistently organizes many seminars, workshops and Expert lectures of eminent personalities from IT Industries.
